Teacher Professional Development Programme

Welcome to the **Teacher Professional Development Programme.**

As a passionate advocate for nurturing the creative potential of both teachers and students, I've spent the last 16 years in the teaching profession. I've witnessed first hand the transformative power of passionate, creative educators igniting creativity and courage in young people. With this in mind I have designed **Transform**, a programme to empower all teachers to do the same. I believe that when teachers grow, they inspire their students to grow.

This programme is crafted to help teachers evolve as dynamic educators, providing them with the practical tools, inclusive strategies, and the confidence to inspire the next generation of Performing Artists.

By attending these CPD sessions, you'll not only gain valuable skills but also further demonstrate your commitment to continuous learning and professional growth. Whether you're deepening your expertise in performing arts, refining your teaching strategies, or expanding your understanding of SEND, this programme is designed to help you embrace creative courage in every aspect of your teaching journey.

It's time to invest in your future, stand out in your career, and be recognized for your dedication to ongoing professional development.
